The main goal of the Confidence for life courses is to ensure that the participants come to understand how their minds function and how to use their 'Tools of Trade' their conscious, subconscious and super-conscious minds, as well as the body and the voice, to communicate with themselves and other human beings. They will also learn to use their creative energy for a positive outcome. With in-depth knowledge and practice, these 'tools' will ensure a better understanding of the self and others, leading to the acceptance of responsibility for their actions. Confidence for life courses have been designed to appeal to a wide variety of personalities. The major aim is to stimulate visual and verbal creativity and to enhance communication through oral self-expression. The key is 'Knowledge of the Self'.
